RE: Judge Robert A. "Bob" Pitre  
Form 102 Candidate Report

Dear Melissa Horn,

I am writing regarding the late filing of Form 102 for the above Judge Robert A. "Bob" Pitre. I take full responsibility for the late filing of the Form and do not want this to be a reflection of Judge Pitre. He submitted his information to me timely and I do not want his reputation to be harmed in any way. I had computer issues last week and had my computer person working on my server and when he got me up and running, I failed to submit the form and tried to submit all weekend and was rejected. I got the form successfully filed this morning Monday February 22nd with the help of Katrina in technical support who was very helpful. She also notified me of an electronic filing affidavit I needed to get filed and this may have been the reason for the upload to be rejected. I will get this to your office as soon as I get all signatures required.

I have submitted this Form for Judge Pitre for over ten years and have never filed the form late. I am a CPA and have great respect for deadlines and am truly sorry for this situation. I will be responsible for any late fees which you may assess and will pay them directly. My main concern is that this is not a reflection on Judge Pitre as he is a very upstanding and respected individual of whom I have a great deal of respect and admiration for.

I would appreciate any assistance and consideration in handling this with minimal inconvenience for Judge Pitre. I take full responsibility and appreciate any assistance your office can provide for a quick resolution.

Sincerely,

Angela P. Kangas, CPA
